Notice of the Buffalo - Red River Watershed One Watershed, One Plan

Buffalo – Red One Watershed, One Plan (1W1P) local government units (LGUs) are initiating a comprehensive watershed management plan for the Buffalo – Red River Watershed (see attached map). The Buffalo – Red 1W1P LGUs partnership was created through a Memorandum of Agreement between the Counties of Becker, Clay, Otter Tail and Wilkin; the Becker, Clay, West Otter Tail and Wilkin Soil and Water Conservation Districts; and the Buffalo – Red River Watershed District; to create a watershed-based plan under the Minnesota Board of Water and Soil Resources 1W1P Program.

You have been identified as a stakeholder in the planning area, which consists of all the Buffalo – Red River Watershed District and parts of Becker, Clay, Otter Tail and Wilkin counties. As a stakeholder, you are invited to submit priority resource concerns and issues that you feel should be addressed in the planning process and resulting plan.

Please submit your responses to Bruce Albright at balbright@brrwd.org or the Buffalo – Red River Watershed District, 1303 4th Ave NE, PO Box 341, Barnesville, MN 56514 by 4:30 pm, September 23rd, 2018.

There will be a public informational kick-off meeting scheduled following the public comment period to review watershed data, present and discuss priority resource concerns and issues identified by the stakeholders, and provide an opportunity to gain further feedback.

Attached are documents about providing input on priority resource concerns and issues and providing information on known reports, studies and technical information that should be considered during Buffalo – Red River Watershed One Watershed, One Plan process.

Feel free to contact Bruce Albright with any questions.
