Office Hours:  
Monday-Thursday  
8:00 AM-4:30 PM  
Friday  
8:00 AM-2:30 PM

# Board of Managers

Peter Fjestad—Board President  
Otter Tail County  
Term Expires: August 31, 2027

Catherine Affield—Vice President  
Wilkin County  
Term Expires: August 31, 2028

William Davis—Manager  
Clay County  
Term Expires: August 31, 2027

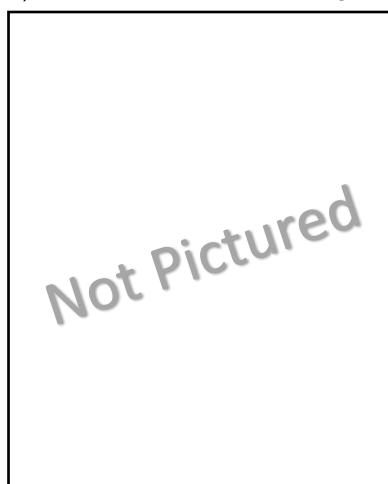

Troy Larson—Treasurer  
Wilkin County  
Term Expires: August 31, 2027

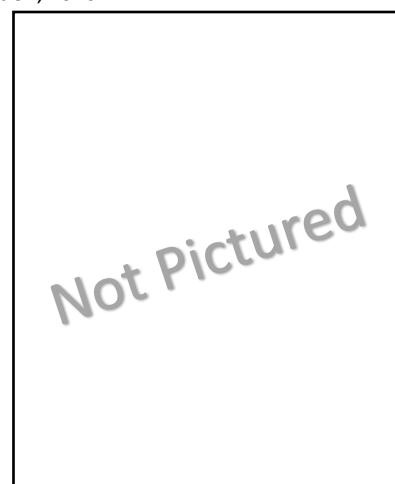

Gerry Van Amburg—Manager  
Clay County  
Term Expires: August 31, 2026

Curtis Stubstad—Manager  
Clay County  
Term Expires: August 31, 2026

Todd Andresen—Manager  
Becker County  
Resigned: March 2025

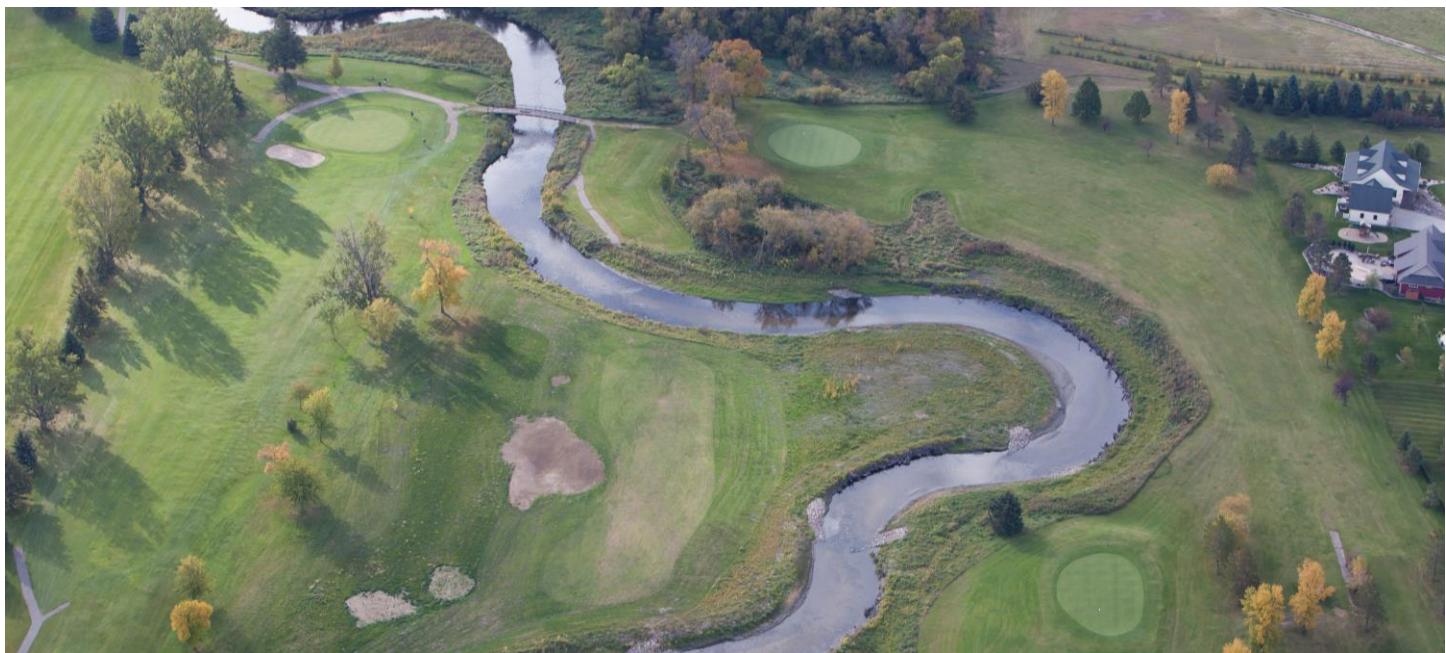

William Steffl—Manager  
Becker County  
Term Expires: August 31, 2027

# Buffalo-Red River Watershed District

## History

BRRWD, originally named South Buffalo Watershed District, was established on August 31, 1960. The District encompassed approximately 344 square miles in Clay, Otter Tail, and Wilkin Counties (primarily the South Branch of the Buffalo River watershed). Following a severe summer flood in 1975, it became apparent that the District needed to include all land contributing runoff to the Buffalo River to address flooding in the watershed. By Order on September 17, 1976, the State of Minnesota expanded the District and changed the name to Buffalo-Red River Watershed District. The Order expanded representation on the Board of Managers to five Managers. In 2011, Wilkin and Otter Tail Counties petitioned Board of Water and Soil Resources (BWSR) to expand BRRWD to include lands between the south border of BRRWD and Bois de Sioux Watershed District. The State of Minnesota expanded BRRWD to its current size by Order on April 25, 2012. The Order expanded representation on the Board to include seven Managers: three from Clay County, two from Wilkin County, one from Becker County, and one from Otter Tail County.

Today, BRRWD covers an area of approximately 1,780 square miles in Becker, Clay, Otter Tail, and Wilkin Counties. The principal watercourse is the Buffalo River, located in parts of Becker and Clay Counties. The South Branch of the Buffalo River is a tributary to the Buffalo River in parts of Clay, Wilkin, and Otter Tail Counties. Tributaries to the South Branch include Stony Creek, Hay Creek, Whisky Creek, and Deerhorn Creek. Other major tributaries to the Buffalo River include Hay Creek, east of Hawley, and Becker C.D. No. 15, north of Audubon. Direct tributaries to the Red River of the North include Wolverton Creek in Wilkin and Clay Counties; Whiskey Creek in Wilkin County; and the Otter Tail River in Otter Tail and Wilkin Counties.

Buffalo-Red River Watershed District is committed to serving the residents of the District to provide efficient management of our water resources.

## Mission Statement

To alleviate flooding and to manage water resources of the District in a manner that best protects this valuable resource.

## Goals

- Reduce or alleviate damage caused by floodwaters.
- Administer and maintain drainage systems.
- Develop programs and projects that will help to sustain an adequate supply of high-quality surface and groundwater for public and private use.
- Protect and/or improve water quality of the surface and groundwater resources.
- Cooperate and support viable projects that have the purpose of reducing erosion.
- Actively pursue a program of erosion control and sediment management within all ditch systems.
- Promote maintenance of biotic diversity.
- Incorporate recreational opportunities into District projects whenever feasible.
- Maximize potential cooperative opportunities available with all government levels.
- Endeavor to keep all residents informed of its duties, authorities, activities, and projects.
- Endeavor to inform and educate residents about water and soil resource issues and the importance of protecting these crucial resources.

# 2025 in Review

## January

- **Annual Meeting** – Held Annual Meeting.
- **Lobbying Services** – Approved proposal from Joel Carlson, Inc for 2025-2026 lobbying services.
- **Clay County Ditch No. 9** – Accepted Petition and Findings and Order to Appoint Engineer to investigate proposal to impound, reroute, and divert ditch.
- **South Branch Buffalo River Restoration** – Approved methodology for determining temporary and permanent easement payment rates. Decided to move forward with stream restoration on Phase 2 of the project. Approved grant agreement with Minnesota Department of Natural Resources for \$1,313,300.00 for Phase 2.
- **Upper Buffalo River Restoration** – Approved moving forward with only the upstream portion of proposed project and authorized development of water management district to reflect decision. Approved methodology for determining temporary easement payment rates. Approved grant agreement with Minnesota Department of Natural Resources for \$1,718,224.00.
- **City of Wolverton Flood Mitigation** – Approved payment rates for permanent and temporary easement payments.
- **Reinvest in Minnesota (RIM)** – Approved Memorandum of Understand with Board of Water and Soil Resources to utilize RIM lands for stream restoration projects.
- **2024 Annual Report** – Approved 2024 Annual Report.
- **Red River Basin Commission Annual Conference** – Attended by Managers Fjestad and Affield.

## February

- **Upper Buffalo River Restoration** – Approved paying landowners for two years of crop loss for Temporary Easements and Approved proposal from In Situ Archaeological Consulting to complete Archaeological Investigation.
- **Funding for Fargo-Moorhead Area Diversion Project** – Approved Resolution to support Clay County's efforts to pursue funding from Minnesota State Legislature.
- **Citizen Advisory Committee** – Appointed Citizen Advisory Committee Members.
- **Minnesota Watersheds Legislative Event** – Attended by Manager Fjestad.

## March

- **South Branch Buffalo River Restoration-Phase 2** – Approved Engineer's Report. Accepted Water Management District. Set time and date for Hearing.
- **Upper Buffalo River Restoration** – Accepted Water Management District. Set time and date for Hearing.
- **Turtle Lake Outlet** – Approved updated Appraisal Report using 2023 property values.

## April

- **South Branch Buffalo River Restoration-Phase 2** – Held Hearing. Approved Findings and Order to establish project.
- **Upper Buffalo River Restoration** – Held Hearing.
- **Clay County Ditch No. 9** – Accepted Report of Findings from Engineer. Set time and date for Hearing in the matter of the Petition to impound, reroute, and divert ditch.
- **Human Resources Contract** – Renewed contract with HighRoad Partners for Human Resources Services.
- **Water Quality Monitoring** – Approved contract with International Water Institute to complete water quality monitoring for 2025.
- **Citizen Advisory Committee** – Held Annual Meeting.

## May

- **Clay County Ditch No. 5** – Accepted Petition. Set time and date for Hearing in the matter of the Petition to use Clay County Ditch No. 5 as an outlet.
- **Clay County Ditch No. 9** – Held Hearing. Approved Findings and Order to impound, reroute, and divert ditch.
- **Upper South Branch Buffalo River Restoration** – Approved Amended Findings and Order.
- **Upper Buffalo River Restoration** – Denied motion to approve Findings and Order due to negative landowner feedback at Hearing.
- **Wilkin Soil and Water Conservation District (SWCD)** – Approved providing Wilkin SWCD \$25,000.00 for funding technical assistance for Soil Health Program.
- **Project Team** – Held Project Team Meeting.

# 2025 in Review

## June

- **Clay County Ditch No. 5** – Held Hearing. Approved Findings and Order to add land to use Clay County Ditch No. 5 as an outlet.
- **Funding for Fargo-Moorhead Area Diversion Project** – Approved Resolution to support efforts to pursue funding from Minnesota State Legislature for City of Georgetown Flood Mitigation Project and City of Wolverton Flood Mitigation Project.
- **Upper Buffalo River Restoration** – Approved honoring incentive payments for landowners that enrolled land in Reinvest in Minnesota Program.
- **Audit Report** – Accepted Audit Report conducted by Brady Martz & Associates.
- **Minnesota Watersheds Summer Tour** – Attended by Managers Fjestad and Affield.

## July

- **Glyndon East Tributary Restoration** – Construction complete, approved Change Order No. 3 for \$23,710.00 and closed contract.
- **Upper South Branch Buffalo River Restoration** – Approved Change Order No. 2 for \$33,725.30 for Phase 1.
- **Upper South Branch Buffalo River Restoration** – Awarded Phase 2 construction contract to Comstock Construction for \$1,532,400.00.

## August

- **Whiskey Creek and South Tributaries Restoration** – Approved proposal from In Situ Archaeological Consulting to complete Archaeological Investigation.
- **Whiskey Creek Restoration** – Construction of repair complete, closed contract.
- **Clay County Ditch No. 47** – Award contract to Key Contracting for concrete liner repair for \$67,704.00.
- **Budget Hearing** – Held 2026 Budget Hearing.

## September

- **Clay County Ditch No. 67** – Accepted Petition. Set time and date for Hearing in the matter of the Petition to use Clay County Ditch No. 67 as an outlet.

## October

- **Clay County Ditch No. 11** – Accepted Petition. Set time and date for Hearing in the matter of the Petition to use Clay County Ditch No. 11 as an outlet.
- **Clay County Ditch No. 67** – Held Hearing to add land to use Clay County Ditch No. 67 as an outlet.
- **Wilkin County Ditch No. 3** – Approved cost share request for culvert with Akron Township for \$5,000.00
- **Wilkin County Ditch No. 12** – Approved Order to remedy buffer non-compliance.
- **Whiskey Creek Enhancement Project** – Approved Change Order No. 2 for \$476,350.00.
- **City of Wolverton Flood Mitigation Project** – Approved purchase agreement to purchase wetland credits.
- **Municipal Separate Storm Sewer System** – Approved updating rules to comply with MPCA requirements and time and date for hearing.
- **International Water Institute** – Approve require for cost share on update to map portal for \$2,689.00.
- **1099s** – Approved contracting with Brady Martz to complete 2025 1099s.

## November

- **Clay County Ditch No. 11** – Held Hearing. Approved Findings and Order to add land to use Clay County Ditch No. 11 as an outlet.
- **Whiskey Creek and South Tributaries Restoration** – Approved hiring appraiser to determine land values for easements.
- **Employee Handbook** – Approved updates to comply with Minnesota Law for Paid Family Medical Leave.

## December

- **Clay County Ditch No. 33** – Approved payment methods for expanded easements for outlet repair.
- **Clay County Ditch No. 47** – Approved Change Order No. 1 for -\$15,404.00 for channel liner repair.
- **Whiskey Creek and South Tributaries Restoration** – Approved hiring Natwick Appraisals to complete appraisal reports.
- **City of Wolverton Flood Mitigation Project** – Approved amended purchase agreement to purchase wetland credits.
- **Rules** – Held Hearing to amend Rules to comply with Minnesota Pollution Control Agency's MS4 requirements.
- **Minnesota Watersheds Annual Conference** – Attended by Managers Fjestad, Affield, and Van Amburg.

# 2025 Highlights

## Board Meetings

BRRWD held their monthly Board Meeting on the second Monday of each month unless the second Monday of the month fell on a holiday when the BRRWD office is closed. In 2025, BRRWD held 12 Board Meetings. The annual meeting was held on January 9 and the budget hearing was held on August 11.

January 9  
February 10  
March 10  
April 14  
May 12  
June 9  
July 14  
August 11  
September 8  
October 13  
November 10  
December 8

## Informational Meetings and Hearings

In 2025, BRRWD held 2 Informational Meetings and 8 Hearings.

South Branch Buffalo River Restoration – Hearing, April  
Upper Buffalo River Restoration – Hearing, April  
Clay County Ditch No. 9 – Hearing, May  
Clay County Ditch No. 5 – Hearing, June  
Whisky Creek and South Tributaries Restoration – Informational Meeting, July  
2026 Budget – Hearing, August  
Clay County Ditch No. 67 – Hearing, October  
Clay County Ditch No. 11 – Hearing, November  
Rule Change – Hearing, December  
Wilkin County Ditch No. 3 – Informational Meeting, December

## Permits

Permit Applications: 104

Permits Brought to Board: 103

Permits Withdrawn: 0

Permits Approved: 101

Permits Denied: 2

## Drainage Repairs

Board of Managers approved 32 repairs on public drainage systems regulated under Minnesota Statute 103E.

## Board Education

January: Red River Basin Commission Annual Conference, Moorhead, MN – Attended by Managers Fjestad and Affield

February: Minnesota Watersheds Legislative Event, St. Paul, MN – Attended by Manager Fjestad

February: Board of Water and Soil Resources Manager Orientation Training, Detroit Lakes, MN – Attended by Stubstad and Andresen.

March: Flood Damager Reduction Workgroup & Red River Watershed Management Board Annual Joint Conference, Moorhead, MN – Attended by Manager Van Amburg

March: Minnesota Watershed Special Meeting on Bylaws, Waite Park, MN – Attended by Managers Fjestad and Affield.

April: Citizen Advisory Committee, Barnesville, MN – Attended by Managers Fjestad, Affield, and Davis

May: Project Team, Barnesville, MN - Attended by Managers Affield, Davis, and Steffl

June: Minnesota Watersheds Summer Tour, St. Paul, MN – Attended by Managers Fjestad, Affield

August: Minnesota Watersheds Annual Meeting on Resolutions and Petitions, Virtual – Attended by Managers Fjestad, Affield, and Davis

December: Minnesota Watersheds Annual Conference, Nisswa, MN – Attended by Managers Fjestad, Affield, and Van Amburg

# 2025 Highlights

## Drainage & Project Maintenance & Repairs

System	Location	Repair	Estimated Cost	Approval Date
Clay County Ditch No. 35	Sec. 31, Moland Twp, Clay County	Scour hole and plugged culvert. Haul in 60' of clay and remove sediment in culvert.	\$2,000 - \$2,500	March 10
Clay County Ditch No. 36	Sec. 10, Holy Cross Twp, Clay County	18" flapgate fell off. Cut off 1' cmp and remount flapgate.	\$500	April 14
Clay County Ditch No. 41	Secs. 24, 25, 36, Moorhead Twp, Clay County	Brush/willows growing in channel. Three miles of brush mowing in channel	\$3,000 - \$4,000	April 14
Clay-Wilkin Judicial Ditch No. 1	Sec. 1, Wolverton Twp, Wilkin County & Secs. 30, 31, Alliance Twp, Clay County	Cattails and minor sediment in channel. Clean out 2 miles.	\$15,000 - \$18,000	April 14
Wilkin County Ditch No. 41	Sec. 15, Atherton Twp, Wilkin County	Brush/willows growing along ditch. 3/4 mile of brush mowing along spoilbank.	\$500 - \$1,000	April 14
Pj. No. 80 - Stony Creek Restoration	Secs. 3, 4, 11, Barnesville Twp, Clay County	Brush/willows growing along channel. 1.5 miles of brush mowing along channel.	\$1,000 - \$1,500	April 14
Becker County Ditch No. 5	Sec. 22, Audubon Twp, Becker County	Washout along ditch spillway. Haul in 30 yards class three rip rap to keep washout from expanding.	\$4,000 - \$5,000	May 12
Clay County Ditch No. 2	Sec. 28, Spring Prairie Twp, Clay County	Collapsed side inlet culvert end. Cut off 12' and reinstall 18"x12' corrugated metal pipe (cmp) with band and flapgate. Haul in two loads of clay and one load of rip rap..	\$4,000 - \$5,000	May 12
Clay County Ditch No. 2	Sec. 30, Spring Prairie Twp, Clay County	Missing flapgate. Cut off 1' cmp and install new 24 flapgate.	\$1,500 - \$2,000	May 12
Clay County Ditch No. 9	Sec. 6, Elmwood Twp, Clay County	Damaged side inlet. Cut damaged cmp and add 18"x8' cmp and remount flapgate.	\$1,000 - \$1,500	May 12

## Drainage & Project Maintenance & Repairs

System	Location	Repair	Estimated Cost	Approval Date
Clay County Ditch No. 11S	Sec. 3, Holy Cross Twp, Clay County	Sediment in channel. Ditch cleanout of one mile.	\$12,000 - \$15,000	December 8
Clay County Ditch No. 21	Secs. 1, 2, Elmwood Twp, Secs. 5, 6, Elkton Twp, Clay County	Sediment in channel. Ditch cleanout of four miles. Seed spoil material after spread out.	\$65,000 - \$70,000	December 8
Clay County Ditch No. 40	Secs. 18, 20, 25, 26, 27, 28, Kurtz Twp, Clay County	Sediment in channel. Cleanout whole ditch system (five and a half miles). Seed spoil material after spread out.	\$87,000 - \$95,000	December 8
Clay County Ditch No. 58	Sec. 12, Elmwood Twp, Clay County	Sediment in channel. Ditch cleanout of one mile. Seed spoil material after spread out.	\$13,000 - \$17,500	December 8
Wilkin County Ditch No. 2	Secs. 5, 8, Sunnyside Twp, Wilkin County	Sediment in channel. Ditch cleanout of one mile. Seed spoil material after spread out.	\$13,000 - \$17,500	December 8
Wilkin County Ditch No. 43	Secs. 26, 27, Atherton Twp, Wilkin County	Sediment in channel. Ditch cleanout of one and a half miles. Seed spoil material after spread out.	\$19,000 - \$25,000	December 8
Pj. 79, Wolverton Creek	Sec. 17, Mitchell Twp, Wilkin County	Clean approximately 460 feet of ditch within BRRWD ROW, from road culvert to a side inlet	\$3,000-\$4,000	December 8
Total Annual Estimated Repair Costs			\$534,300.00	

# Project Highlights

## Glyndon East Tributary Restoration

The Glyndon East Tributary is a tributary to the Buffalo River located in Clay County. The Glyndon East Tributary subwatershed is approximately 9.5 square miles. The stream has a total length of 9.2 river miles starting at MN State Highway 9 and extending downstream to the Buffalo River.

Project proposed to improve channel conveyance for agricultural drainage and lagoon discharge from the City of Glyndon, improve water quality, restore conveyance through historic meanders, and improve wildlife habitat.

The hearing to establish the Glyndon East Tributary Restoration as a project was held in May 2022. With the approval of the Findings and Order, temporary and permanent easements were acquired for construction and long-term maintenance of the project. Contract was awarded to States Borders Construction, Inc. in November 2022. Construction commenced in May 2023 and continued through 2025. Contract was closed in July 2025. Total construction cost was \$1,297,075.50.

Glyndon East Tributary Restoration was funded by:

- Minnesota Board of Water and Soil Resources, Clean Water Fund, Watershed-based Implementation Fund
- Glyndon East Tributary Water Management District
- BRRWD basic water management fund

Glyndon East Tributary Restoration under construction.

Glyndon East Tributary Restoration after construction.

Glyndon East Tributary Restoration after construction.

# Project Highlights

## Stony Creek Restoration

Stony Creek is a tributary to the South Branch Buffalo River in Clay County. The Stony Creek subwatershed is approximately 131 square miles.

Project proposed to restore 4 miles of channel, construct setback levees, install sediment BMPs, and establish buffers along the channel. Project proposed to address agricultural flooding, sedimentation in the channel, poor water quality, and improve habitat.

Project Hearing was held in June 2023. With the approval of the Findings and Order, easements were acquired for construction and long-term maintenance of the project. Contract was awarded to ACM, LLC in August 2023. Construction commenced in September 2023 and continued through 2025. Contract was closed in June 2025. Total construction cost was \$1,134,762.06.

Stony Creek Restoration was funded by:

- Minnesota Department of Natural Resources, Stream Habitat Program funded through Lessard-Sams Outdoor Heritage Fund
- Minnesota Department of Natural Resources, Flood Hazard Mitigation Program
- Stony Creek Water Management District
- BRRWD basic water management fund

## Whiskey Creek Enhancement Project

Whiskey Creek is a tributary of the Red River of the North located in Wilkin County, MN. Whiskey Creek is one of many natural waterways within the BRRWD that has poor water quality due to agricultural practices and channel bank erosion. Whiskey Creek Enhancement Project is a multi-phase project, restoring the channel in Sections 5, 8, 9, 10, and 15, Connelly Township, Sections 19, 29, 30, 31, and 32, Nordick Township, and Section 24 McCauleyville Township.

Project proposed to improve water quality, promote stable stream conditions, improve aquatic and wildlife habitat, and provide significant flood damage reduction.

A hearing was held April 2021 to establish the Whiskey Creek Enhancement Project. Contract for Phase 1 was awarded to Ehlert Excavating, Inc. in June 2021. Construction of Phase 1 was completed in November 2021. Ehlert Excavating, Inc completed Phase 2 of construction in September 2022. Contract for Phase 1 and 2 closed in July 2023. Total construction cost for Phase 1 and 2 was \$1,328,409.22.

Contract for Phase 3 was awarded to Ehlert Excavating, Inc. in April 2023 and construction began in June 2023. In August 2023, Contract with Ehlert Excavating, Inc. was extended to include Phase 4. Phase 4 construction continued through 2025. Contract expected to close in 2026 once vegetation is established. Total expected construction cost for Phase 3 and 4 is \$3,049,431.50.

BRRWD continue to acquire permanent easements for the project area in 2026.

Whiskey Creek Enhancement Project was funded by:

- Natural Resource Conservation Service, National Water Quality Initiative Grant
- United States Fish and Wildlife Service, Great Plains Fish Habitat Partnership Grant
- Minnesota Pollution Control Agency, Section 319 Funds
- Lessard-Sams Outdoor Heritage Council, Outdoor Heritage Fund
- Department of Natural Resources Stream Habitat Program through Lessard-Sams Outdoor Heritage Council
- Board of Water and Soil Resources, Clean Water Fund
- Reinvest in Minnesota
- Conservation Reserve Enhancement Program
- Whiskey Creek Water Management District
- BRRWD basic water management

Whiskey Creek Enhancement Project before construction

Whiskey Creek Enhancement Project after construction.

# Project Highlights

## Upper South Branch Buffalo River Restoration Project

South Branch Buffalo River is a tributary to the Buffalo River, located in Wilkin and Clay Counties. Phase 1 of South Branch Buffalo River Restoration is located in Sections 9, 10, and 11, Manston Township, Wilkin County. The project has a subwatershed of approximately 27 square miles.

There are two legal public drainage ditches located within the South Branch Buffalo River—Phase 1 subwatershed: Wilkin County Ditch No. 44 Lateral A and Wilkin County Ditch No. 44 Lateral B. Phase 1 will reroute Wilkin County Ditch No. 44 Lateral A in Sections 9, 10, and 11, Manston Township back into the historic channel.

A Hearing to reroute and partially abandon Wilkin County Ditch No. 44 was held in February 2022. Construction contract for Phase 1 was awarded to Minnesota Native Landscapes in June 2022. Construction commenced in September 2022 and continued through 2025. Contract for Phase 1 was closed in November 2025. Total construction cost for Phase 1 was \$837,311.56.

A Hearing for Phase 2 was held in April 2025. An Order to establish the project approved in April 2025 and amended in May 2025. Construction contract for Phase 2 was awarded to Comstock Construction, Inc. Expected project cost is \$1,532,400.00. Construction is expected to commence in 2026. BRRWD began obtaining easements for Phase 2 in 2025. BRRWD will continue to obtain easements in 2026.

Upper South Branch Buffalo River is funded by:

- Natural Resource Conservation Service, National Water Quality Initiative Grant
- Minnesota Board of Water and Soil Resources, Clean Water Fund
- Minnesota Department of Natural Resources, Stream Habitat Program funded through Lessard-Sams Outdoor Heritage Fund
- Reinvest in Minnesota
- Flood Damage Reduction Workgroup
- Upper South Branch Buffalo River Water Management District
- BRRWD basic water management fund

## City of Wolverton Flood Protection

BRRWD will design, construct, operate, and maintain a flood protection project for the City of Wolverton to provide the City with 100-year FEMA Accredited Flood Protection.

In 2022, BRRWD signed the Memorandum of Understanding (MOU) with the MFDA to support project. Houston Engineering, Inc. completed survey work to inform project design. BRRWD met with the City to begin project development. BRRWD continued coordinating with landowners, City, Railroad, and Minnesota Department of Transportation (MNDOT) and finalize levee design in 2023, 2024, and 2025. In 2024, BRRWD hired Crown Appraisals, Inc to determine land values for easement acquisition. BRRWD also held a landowner meeting to discuss project design. BRRWD established City of Wolverton Flood Mitigation Project by resolution in December 2024. BRRWD continued to work on project design, permitting, and land acquisition coordination in 2025. Land acquisition is expected to commence in 2026. Construction is expected to commence in 2026 and continue through 2027.

City of Wolverton Flood Protection is funded by:

- Metro Flood Diversion Authority

# City of Georgetown Flood Protection

BRRWD will design, construct, operate, and maintain a flood protection project for the City of Georgetown to provide the City with 100-year FEMA Accredited Flood Protection with funding provided by MFDA.

In 2022, BRRWD signed the MOU with the MFDA to support project. Houston Engineering, Inc. completed survey work to inform project design. In 2023, BRRWD continued coordinating with landowners, City, Railroad, and MNDOT and finalize levee design. In 2024, BRRWD hired Natwick Appraisals to determine land values for easement acquisition. BRRWD also held a landowner meeting to discuss project design. BRRWD established City of Georgetown Flood Mitigation Project by resolution in December 2024. BRRWD continued to work on project design, permitting, and land acquisition coordination in 2025. Land acquisition expected to commence in 2026. Construction is expected to commence in 2026 and continue through 2027.

City of Georgetown Flood Protection is funded by:

- Metro Flood Diversion Authority

## Lower Otter Tail River Restoration

Otter Tail River watershed encompasses approximately 1,952 square miles of drainage from Clearwater, Becker, Otter Tail, and Wilkin Counties. The river outlets in the City of Breckenridge, MN, where its confluence with the Bois de Sioux River forms the headwaters of the Red River of the North

Project proposes to restore the Lower Otter Tail River by reconnecting oxbows to remeander the channel. This project will improve water quality and wildlife habitat.

In 2025, BRRWD began acquiring easements through Reinvest in Minnesota. BRRWD continued landowner outreach and project design. In 2026, BRRWD anticipates continuing land acquisition efforts, holding a project hearing, and beginning construction.

Lower Otter Tail River Restoration is funded by:

- Lessard-Sams Outdoor Heritage Council, Outdoor Heritage Fund
- Minnesota Board of Water and Soil Resources, Clean Water Fund
- Reinvest in Minnesota
- Metro Flood Diversion Authority.

Straightened portion of Lower Otter Tail River Restoration before construction.

## Whisky Creek & South Tributary Restoration

Landowners along Whisky Creek in Barnesville and Alliance Townships, Clay County expressed concerns about flooding. Board of Managers completed survey to design project to address concerns. In 2025, BRRWD continued working on project design.

In 2026, BRRWD plans to continue working on project design, hold Hearing, acquire easements, and commence construction.

Whisky Creek and South Tributary is funded by:

- Lessard-Sams Outdoor Heritage Council, Outdoor Heritage Fund

Whisky Creek before construction.

# Project Highlights

## Oakport Flood Mitigation

The spring flood of 1997 was devastating for the entire Red River Basin. In the Oakport project area, over 150 homes were damaged, and over 200 homes isolated from public safety and services. Similar events in 1969, 2000, and 2001 prompted the Oakport residents to seek permanent flood control. In November 2002, the Township asked the BRRWD to develop a project in accordance with Watershed Law. BRRWD began construction of the \$36 million project in 2008. The seven phases of the project were completed in 2016.

Oakport Levee.

In 2021, BRRWD began discussions with the City of Moorhead to transfer the project area to the City. In 2022 an agreement was drafted and BRRWD and the City began addressing items to complete prior to the transfer. BRRWD continued to work on the transfer in 2025. Property transfer is expected to occur in 2026.
