Beaver Management Policy

BRRWD will be responsible for beaver management on all jurisdictional legal ditch systems and projects with benefiting areas within their jurisdiction. BRRWD will manage beavers if they are a nuisance to legal ditch systems, restored stream channels with benefiting areas, or other project features. If landowners manage beavers in these areas, without prior authorization from BRRWD Board, it will be at their own expense. Prior authorization requires total estimated costs, actual costs billed to BRRWD may not to exceed limit approved by Board of Managers. BRRWD will pay no more than \$100 per beaver plus actual mileage paid at the Internal Revenue Service Standard Mileage Rate.

Approved May 9, 2022
